Aspiring AI/ML Engineer | Python • Machine Learning • DSA | B.Tech
CSE (AI & ML)

Kolkata, West Bengal, India

Summary

I'm a second-year Computer Science student specializing in Artificial Intelligence & Machine Learning, passionate about understanding how intelligent systems can solve real-world challenges and create meaningful impact. Currently, I'm building a strong foundation in Machine Learning, Data Structures & Algorithms, and Python while exploring the rapidly evolving world of Generative AI, automation, and data-driven technologies. Beyond academics, I focus on strengthening my problem-solving skills and applying concepts through hands-on projects, continuously improving my understanding of AI and software development. Currently Learning: • Machine Learning • Data Structures & Algorithms • Python • Data Science Fundamentals • Generative AI & LLM Applications Areas of Interest: • Artificial Intelligence • Machine Learning • Generative AI • Data Science • Automation • Software Development I believe in continuous learning, building practical projects, and collaborating with like-minded individuals who are passionate about technology and innovation. I'm actively seeking opportunities to learn, contribute, and grow through internships, mentorships, open-source projects, and meaningful collaborations. Let's connect if you're interested in AI, ML, software engineering, or emerging technologies. I'm always open to learning from experienced professionals, sharing ideas, and building exciting things together.

Education

Haldia Institute of Technology

Bachelor of Technology - BTech, Computer Science and Engineering (CSE)
with specialization in AI & ML · (2025 - 2029)

Kendriya Vidyalaya (KV)

Secondary School | High School (PCM+CS) · (2017 - 2025)
